ABOUT ME

I'm a student in software engineering. I've always found coding intuitive and have pushed myself to learn the most effectively to achieve a result.

I'm a fast learner and a person who loves to learn new things; I can quickly integrate into a team, so that I can provide value to the company and its customers.

I'm passionate about working in a fast-paced Agile team and growing in it.

EXPERIENCE

Negin pardazesh Farda , Tehran — Django developer
